# SEARCH TERMS

*Posted on August 19, 2008 by Eddie*

**Category:** Computing/Internet

I'm always interested to look at the log files for Kouya Chronicle to see what terms people have searched for when they arrive on this site from Google or elsewhere. Generally the searches make sense: 'purpose of the Bible' is a common one as is 'worship songs by theme'. Yesterday, however, someone in Brooklyn New York arrived here after searching for 'Christian Wife Beating'. Why would anyone search for that? By the way, if you do the search, we end up as the eighth page link on Google and it takes you to this post (which is not about wife beating - honest).
