SEEING HOW OTHERS WORK

One of the interesting things we get to do from time to time is work with Christian leaders from other organisations as well as with Wycliffe. Yesterday, Sue and I spent some time with the coordinator of the Christian Therapists Network helping her think through some of the issues raised by the way their organisation is growing and developing.

Today, I spent the whole day with the board of Africa Inland Mission. Over the past year or so, I've been working with AIM helping the board develop a new set of governance policies, a job which finished today. It's fascinating to see how other organisations work and to see what God is doing through them.
