An encounter with Yahweh is transformative:
mission and the book of Job.
Category: Observations

Most people, if asked to talk about mission from the Bible would turn to the Gospels, the book of Acts or somewhere else in the New Testament, if pushed they might refer to Genesis 12 or the book of Jonah. Hardly anyone would think of looking at the book of Job. However, that is exactly what Tim Davy has done in his recent book The Book of Job and The Mission of God: A Missional Reading. In this interview, Tim who is a lecturer and the head of research & consultancy at All Nations Christian College explains why he focussed on this particular text and how its central message speaks into our context.
