> *This week, Thomas Nelson, Inc.â€™s Bible Group has officially launched a new Bible translation,* ***The Voiceâ„¢,*** *with the release of* ***The Voiceâ„¢ New Testament****. This is the first completely new Bible translation available to readers in several years.* ***The Voiceâ„¢*** *translation captures the different writing styles of the New Testament authors, revealing their unique voices to readers instead of homogenizing the text. About 40 different authors are believed to have been inspired by God to write the Scriptures.* ***The Voiceâ„¢*** *is distinctive in that it retains the perspective, the voice, of the human writers. Most English translations attempt to even out the styles of the different authors in sentence structure and vocabulary. Instead,* ***The Voiceâ„¢*** *distinguishes the uniqueness of each author. The heart of the project is retelling the story of the Bible in a form as fluid as modern literary works while remaining true to the original Greek and Hebrew manuscripts. (read more)*

Excuse me if I can't get very excited about this, but the release of yet another translation in English in a world where the speakers of around 2,000 languages are still waiting for their first translation of Scripture is something I find distinctly underwhleming.
