I don't have time to write much about this, and my blood pressure probably couldn't cope with thinking about the subject for long, but some readers of Kouya Chronicle might want to be aware of this new publication.

> *Author, pastor and teacher Dr. Richard Lee and Thomas Nelson Publishing have assembled the original, one-of-a-kind â€œAmerican Patriotâ€™s Bible.â€ This bible contains every word of the Holy Scriptures in the New King James version and also includes hundreds of articles, illustrations and stories about Americaâ€™s rich Christian heritage and the bibleâ€™s impact on its culture, lifestyles, laws and morals. This bible is availalbe May 2009 wherever bibles are sold.*

You can see more discussion on the Patriot's Bible including a couple of decidedly strange promos here.

I don't have anything against Thomas Nelson, but they do have two of the strangest Bible publications I've ever come across (see this earlier post)
