Category: Bible Translation

For anyone who is interested, I've just developed a short web page with links to a presentation I've written for a Christian Conference later this week. You can download the Script, Powerpoint and a handout. There are also a number of links to resources which might be of interest. Though some of my sermons have appeared at Bible Today. I've not put many of my talks here on Kouya.net. You can find the new material here
