MICHAEL FROST

Categories: Mission, Reviews, Theology

There is an excellent series of talks by Michael Frost available here. They are well worth listening to if you are interested in how the church needs to meet the challenges of the post-modern world.

Michael is co-author of The Shaping of Things to Come (one of the best books I've read in the last five years), and author of Exiles: Living Missionally in a Post-Christian Culture (which just arrived on my desk from Amazon today).
