THE BIBLE TRANSLATOR

Posted on April 10, 2013 by Eddie

Category: Bible Translation

The Bible Translator is an excellent journal which deserves to be known by a much wider audience. The articles are of interest to translators (obviously) but also to anyone with an interest in the text of the Bible. It is scholarly, but not so scholarly that it is difficult to read.

The journal itself has been available online for a while now, but as there was no easily searchable index it was rather difficult to find any articles unless you already knew the title and date of publication.

However, Rob Bradshaw of Biblical Studies UK has recently made an index of over fifty years's worth of the journal available online.

Rob's site is a treasure trove at the best of times, but I really believe that making this index generally available is a truly significant step forward in popular Biblical scholarship. Thank you, Rob!
