BOOKS I HAVE READ: AU REVOIR EUROPE

Those who know me well, know that I'm fairly strongly opposed to the European Union. Not out of any barmy reading of Revelation that claims that the EU is the beast of Babylon or some such, just simply because I believe it to be a highly undemocratic and corrupt institution.

So, when Kindle were offeringÂ Au Revoir, Europe: What if Britain left the EU?Â for just a pound, I reckoned it had to be a good buy. And it was!

Whatever your views on the EU, this book will give you something to think about. It points out both the strengths and the weaknesses of the Union and gives a convincing picture of what it might be like if Britain were to leave. It didn't change my mind, but at least my thoughts are better informed than they were, previously.

Sadly, Amazon have restored the original price for the book. I'm not enough of a political geek to pay Â£7.99 for it, but I did enjoy it.
