I've not yet finished reading Christ All Sufficient: Colossians & Philemon Simply Explained (Welwyn Commentary) but so far I'm impressed. I like the Welwyn series of commentaries, they are simple devotional books that don't wrestle with textual issues so much as point you to how the text might influence the way you live your life.

You can read a sample chapter here if you want to give it a go.

Any similarity between the author's family name and mine is purely biological.
