LOVING AND LOVING

Posted on March 18, 2015 by Eddie

A nice seven minute video which might make you think twice about some of the New Testament Greek that everyone knows.
Category: Bible Translation

It's probably safe to say that though most Christians don't know much New Testament Greek, many of them know that there are a number of Greek words forÂ *love* and that there is a special word for God's love;Â *agape* as opposed to the word for human loveÂ *phileo*.

Long time readers of Kouyanet may remember that I'm not entirely convinced by this distinction. This excellent seven minute video gives a brilliant bit of background to the Greek of John 21, one of the passages which is usually cited to prove the difference between the two Greek words.
