# A VERY MOVING BLOG

**Category:** Observations

I am recommending this blog with a slight amount of trepidation. It's not the sort of thing I normally cover here, put it simply it's the story of 18 months in a young man's life. It's incredibly moving and thought provoking but, the language is robust (very robust!) and you shouldn't bother looking at it if you are quickly offended by rude words. For me, the blog had an extra edge because the writer is from Sunderland and there places, expressions and linguistic turns of phrase that are all part of my life too. It's a good read - but not an easy one. This link takes you to the first post on the blog, read upwards till the top and set aside a serious amount of time for it.
