TOO EARLY FOR WORDSWORTH

Posted on January 24, 2008 by Eddie

Category: Observations

Not only was the temperature a relatively balmy 13C yesterday (ok, that's cold if you are in Africa - but this is England in January) but there were daffodils in flower. I'm sure that they only appear in March. If long term climate change isn't happening, then something is! Methinks the daffodils have a better idea of what is going on than some newspaper journalists.
