THE BOOK OF JOB

Posted on August 13, 2018 by Eddie

A great overview of a somewhat complex and misunderstood book.
Category: Observations

The congregation at South Craven Evangelical Church are reading through the Bible together over a three year period. Very often, when we are about to start a new book, we will watch an introductory video from the Bible Project which gives an overview of the structure and message of the book. These videos are invariably well thought-through and informative. However, I found the introduction to the book of Job, which we watched yesterday, to be absolutely outstanding. This is worth eleven minutes of anyone's time.

If you are reading this via email and the video doesn't show up, you can find it here.

You can explore all of the video resources from the Bible Project at this link. It's well worth spending some time there.
