Older Presentations

Here are a few PowerPoint files for presentations that I developed between 2000 and 2005. Please feel free to download and use them as you see fit. A link to kouya.net is always appreciated.

- God's Project: the version I presented recently at Charlotte Baptist Chapel in Edinburgh, is available for download here. Please note that this is a much larger download than the zipped version of God's project below.
- The full version of God's Project, complete with an outline script.
- Serving the Seeking God: A (very) short PowerPoint overview of God's communication with humanity and our responsibility in response.
- The God Who Speaks to All People: The title says it all. This is rather similar to God's project,

but with a slightly different approach. Includes a PowerPoint presentation and an outline script.

- Christendom and the Kingdom: another take on the same subject matter. This is a rather more controversial approach which looks at how Christendom's interaction with the society and politics of the West has blunted the message of the Gospel and examining the implications for mission today.
